

Pentru Sistemul de operare WINDOWS VSTA si WINDOWS 7 se apasa click dreapta pe program si in fereastra aparuta se alege "Run as Administrator".

Daca apare fereastra de mai jos se alege Allow.

Se urmeaza pasii normali pentru instalarea kitului.

- 1.1. Se raspunde cu Yes la pop-up urmator "Security alert": "This Web site needs to decrypt data using your private key". "Do you want this Web site to decrypt the data now?"

- 1.2. Se introduc informatiile in campurile aplicatiei.
- 1.3. Se apasa butonul "Verificare"
